

Installation recommendations for Flange type bushings

Recommended Uses; Control arms, Track Bars, Push bars, Mounts, 4 Bar links, etc.

Do not used on applications that involve:

-Heat above 150 F°.

-Constant rotation.

-Excessive overloading.

Note: The actual bushing O.D. is slightly larger and the I.D. Is slightly smaller then noted in the catalog to accomodate proper pre-load.

Be sure that the eye is fully deburred and does not have a raised weld seam on the I.D.
