

SPECIAL INSTRUCTIONS FOR EDELBROCK VICTOR MANIFOLD BASE #2992 AND TOP #2922

-
- This two-piece intake manifold is designed for competition use on NASCAR-style engines only. Please note the following areas which must be machined prior to installation:
 1. Approximately .070" extra material is left on intake flanges of #2922 (spider) and will require milling to fit.
 2. Approximately .050" has been left on carb basepad and finish machining will be required for compliance with NASCAR plenum depth dimensions.
 3. Possible additional machining may be required to achieve proper intake base-to-intake top fit and clearance.
 - **IT IS THE RESPONSIBILITY OF THE END USER TO VERIFY CONFORMITY TO A PARTICULAR RACING ASSOCIATION'S RULES REGARDING MANIFOLD DIMENSIONS, FITMENT TO A TEMPLATE, ETC.**
